### QUESTIONS TABLED ON JUNE 5th, 1979

236. *Mr. Di Santo*—Enquiry of the Ministry—Would the Ministry calculate the total annual spending on goods and services for the Ontario Government by Ministry, by agency and by public corporation. Would he calculate the percentage by value of those goods and services that are not manufactured or produced in Canada. *Tabled June 5th, 1979.*
237. *Mr. Di Santo*—Enquiry of the Ministry—Would the Ministry table fifty examples of Ontario Government purchases since January 1, 1978 where a price preference of more than 10 percent was applied to a Canadian bid. Would he indicate the date of each of those purchases, and its value. *Tabled June 5th, 1979.*
238. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry attempt to provide more precise detail than in its answer to Question 186. When the Ministry announced its special education program on December 15, 1978, what if any estimates did it have of the number of new special education teachers that would be required for the program. What, if any efforts have subsequently been made to determine the need for additional special education teachers. In its answer, could the Ministry indicate what preliminary action it has taken to create new teacher re-training programs to satisfy the anticipated needs created by this new policy direction. *Tabled June 5th, 1979.*
239. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry attempt to provide more precise detail in answer to Question 186. When the Minister announced its special education program on December 15, 1978, to what extent, if any,

was it actually committing the Province to the funding of the program. In the answer to the above-mentioned question, and in the general legislative grant announcement, the Ministry omitted any direct reference to finance. Can the school boards of this province anticipate additional financial support from the province to help them meet the needs of children requiring special education. *Tabled June 5th, 1979.*

What, if any, efforts have subsequently been made to determine more precisely the number of children likely to require special education. Will the Ministry, if possible, break down its answer by area of exceptionality. *Tabled June 5th, 1979.*

141. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not know or does he not agree that general hospitals cannot provide the specific kind of care or services that psychiatric hospitals can and do. That they attend upon and to different and distinct groups of patients in terms of length of care and the seriousness of the emotional disability. *Tabled April 19th, 1979.†††*
142. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health seriously contend that the Queen Street facility can or will into the future meet the projected increasing demands for hospitalization for the mentally ill as is documented in the McKinsey Report and as set out in the OPSEU brief which points out a deficiency of beds almost before you begin. *Tabled April 19th, 1979.†††*
143. *Mr. Lawlor*—Enquiry of the Ministry—What about the Day Care and particularly the out-patients services at Lakeshore. Does the Ministry of Health seriously pretend that the present needs, much more the future requirements, of these people will begin to be met. *Tabled April 19th, 1979.†††*
144. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not recognize on the basis of your own statistics that a new hospital will be necessary, no matter what, within a foreseeable time; and at a very much greater capital cost (including the acquirement of land) than as recommended in the Role Study. *Tabled April 19th, 1979.†††*

146. *Mr. Lawlor*—Enquiry of the Ministry—What is the Ministry of Health thinking about in removing the Dialysis Unit to Whitby when the patients are located at the other end of the world. *Tabled April 19th, 1979.†††*
147. *Mr. Lawlor*—Enquiry of the Ministry—Since it was found impossible over a two-year or greater period to find a location for the Child and Adolescent Care Unit and that institution will remain on the grounds, what basis is there for a belief that the numerous other units can be accommodated elsewhere in the Lakeshore area. Where. And, in particular, the present valued and necessary Alcoholic program. *Tabled April 19th, 1979.†††*
148. *Mr. Lawlor*—Enquiry of the Ministry—What disposition does the Minister of Health intend to make of that building which was financed and constructed by the volunteers, who have been such a valuable asset to this hospital. *Tabled April 19th, 1979.†††*
149. *Mr. Lawlor*—Enquiry of the Ministry—Cannot some use be found by the Ministry of Health for the workshops and rehabilitation equipment and facilities fairly recently erected on the premises at considerable cost. *Tabled April 19th, 1979.†††*
150. *Mr. Lawlor*—Enquiry of the Ministry—In short, and as constantly new questions arise, does the Minister of Health not realize or even acknowledge that he is in the process of making a gross and irreparable blunder which his Government will soon learn to regret, in his unplanned and ill-considered move to close this facility against the best advice of his own hired consultants (\$120,000 worth) and the numerous, most directly involved social agencies and individuals. *Tabled April 19th, 1979.†††*
151. *Mr. Lawlor*—Enquiry of the Ministry—Is the Minister of Health not now prepared to reconsider the closing of Lakeshore Psychiatric Hospital on the basis of the numerous observations and comments made at public meetings, by way of correspondence, and by briefs submitted particularly by the Ontario Public Service Employees Union. *Tabled April 19th, 1979.†††*
152. *Mr. Lawlor*—Enquiry of the Ministry—Since I am often awakened at 3.00 a.m. in the morning by someone calling about a problem, and this has been known to happen to many other Members of the Ontario Legislature, does the Minister of Health really feel that such a disturbance of his sleep constitutes adequate grounds for closing the institution, as he intimates by his repeated, soulful reference to this matter. And in particular, does a fire arising out of actions of a patient in the Special Observation Unit so constitute any or adequate grounds. *Tabled April 19th, 1979.†††*
153. *Mr. Lawlor*—Enquiry of the Ministry—Will the Minister of Health not give good consideration to the perfectly reasonable suggestion made by the Member from Lakeshore that a planned, phased approach to this whole problem would be the best solution for all concerned. That is to say, that a new psychiatric hospital having, say, about 150 beds at its completion, be gradually con-

181. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education table for each School Board in Ontario for 1977, 1978, 1979, using interim and estimate figures where necessary: 1. the average daily enrollment; 2. per pupil grant ceiling; 3. per pupil expenditures; 4. total expenditure; 5. total local taxation; 6. total provincial assistance; 7. rate of grant on recognized ordinary expenditures; 8. provincial contribution as a percentage of the total local school board expenditures; 9. rate of grant for French language instruction; 10. decline or increase in number of students from previous year; 11. decline or increase in number of full time equivalent teachers from previous year; 12. number of self-contained special education classes; 13. number of full time equivalent teachers of special education classes; 14. number of heritage language classes; 15. number of students studying heritage languages; 16. number of pupils whose first language is neither English nor French; 17. number of self-contained classes for pupils whose first language is neither English nor French; 18. number of full-time equivalent teachers of classes for pupils whose first language is neither English nor French. *Tabled May 15th, 1979. 182. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education act upon the request of the Community Association for Unionville Secondary Education (CAUSE) to provide a new high school in Unionville. Will the Minister review the development applications which provide for approximately 3,000 new homes in Unionville, 2,000 in Risebrough and 3,300 in Markham, the result of which will not only overcrowd both Markham District High School and Thornlea High School, but would call for the immediate construction of a secondary school in the Unionville area. Will the Minister immediately undertake to satisfy the need of the secondary school students in Unionville to be educated in their own community. *Tabled May 16th, 1979. Interim Answer May 29th, 1979. Approximate date information available June 8th, 1979.*
183. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education act upon the request of the Risebrough Community Association in the community of Markham, Ontario, to provide new and adequate school facilities to meet the growing educational needs in that area. Will the Minister inform herself of the situation which now exists, in that projected figures indicate that by September 1, 1979, 1000 units of the 1130 units being built will be occupied producing approximately 480 students seeking educational facilities. Will the Minister review the present policy which requires kindergarten children from this area to be bused to a school in Richmond Hill and which also sees children in grades one to five being bused to a small school where gymnastic and library facilities are non-existent. Will the Minister immediately review and provide adequate facilities in this community to meet the educational demands which will be in existence by September 1, 1979. *Tabled May 16th, 1979. Interim Answer May 29th, 1979. Approximate date information available June 8th, 1979.*
184. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education cause an investigation to be made into the overcrowding conditions which exist at the German Mills Public School in Markham. Will the Minister explain the policy of the Ministry which appears to prefer the busing of pupils to distant empty

classrooms in the Regional Municipality of York rather than construct new facilities or add on to existing facilities where circumstances warrant. Will the Minister review the policy of the Ministry which requires that prior to the building of a school, there exist sufficient number of children in the area to equal 80% of the projected capacity of the said school and apply that formula to the building of a school on the Flowerdale site in the Town of Markham, in order to accommodate the excess enrolment in the German Mills Public School which is equal to 123% of that school's designed capacity. Will the Minister review the immediate need for a new school on the Flowerdale site in the light of projected figures over the next five years which indicate that school-age children in the area will increase to approximately 900 and which figure does not take into account the fact that there is presently before the Ontario Municipal Board an application by a developer to build in the area an additional 190 townhouses. If this project is allowed to proceed the projected figures indicate that school enrolment will not decline until 1995. Will the Minister initiate a policy which would provide architecturally acceptable but movable school buildings to accommodate the shifting need of the school population. How does the Minister reconcile the Ministry's policy of fiscal restraint which includes busing and which dictates against the welfare of children, with the more important need of providing adequate facilities so that the educational and social needs of children may be properly met in their own community environment. Will the Minister therefore satisfy the needs of the children in the German Mills area of Markham and build a second school on the Flowerdale site. *Tabled May 16th, 1979. 192. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education indicate what efforts beyond the funding of the Commission of Declining Enrollment it has undertaken to assist local school boards to deal with declining enrollment. Will the Ministry indicate the cash value to local school boards of these efforts. Secondly, in view of the recent reports that the Premier has stated that the Province has not lessened its commitment to education even though the proportion of the provincial budget allocated to education has declined from fiscal 1975/76 to fiscal 1979/80, would it be accurate to calculate the Province's savings from declining enrollment by calculating what the Province would have contributed had it maintained funding at the level existing in fiscal 1975/76 and subtracting the present level. If this is not the case, will the Ministry indicate how much money the Ministry has saved as a result of declining enrollment and what benefits accrue to local school boards as a result of declining enrollment. *Tabled May 17th, 1979. Interim Answer May 31st, 1979. Approximate date information available June 8th, 1979.*

193. *Mr. McClellan*—Enquiry of the Ministry—What were the reasons which led Family Court Judge Goulard to order, in December 1978 the return of the four surviving Paquette children to the custody of their parents. What, if any, was the role of the Official Guardian in that proceeding. What is the basis of the Official Guardian's stated opinion that the Paquette children should return to their parents' custody. Why has it taken 7 months to schedule the appeal by the

(b) The number of citizens in Ontario who have not been adequately protected by vaccination for measles and rubella. (c) Whether there is any evidence of a more severe reaction to rubella or measles in any particular community or any immigrant group and whether there are more people not protected in any particular ethnic community. (d) Does the Ministry have any evidence which would indicate an increased rate of birth defects following an increased incidence of rubella. (e) What steps are being taken to increase the vaccination rate against rubella and measles. *Tabled May 25th, 1979.*
201. *Mr. Mackenzie*—Enquiry of the Ministry—1. Will the Minister of Health inform the House of the number of Inspectors—Regular, Fire, Environmental and Dietary—responsible for Nursing Homes in Ontario at the present time. 2.

If for any reason the Ministry imposes restrictions on access to these documents, will the Ministry explain (a) the reason for the restrictions, (b) the procedure for having these restrictions waived. *Tabled May 28th, 1979.*

205. *Mr. Breaugh*—Enquiry of the Ministry—Further to my question on the Order Paper, #45, would the Minister of Health state the actual number of patients who received a total of 825 electroshock treatments in 1978. Would the Minister state the number of women and men who received these treatments, and what was the average number of treatments received by sex and in total. *Tabled May 29th, 1979.*
206. *Mr. Conway*—Enquiry of the Ministry—Will the Minister of Health advise the House as to which sections of Bill 19, An Act to amend the Mental Health Act, are not proclaimed; in each instance, will he give: 1. a detailed explanation as to why each unproclaimed section has not been proclaimed, and 2. the approximate date he expects each unproclaimed section to be proclaimed. *Tabled May 29th, 1979.*

(P. B-9, Northwest Metro Arterial Street—Eglinton Avenue to St. Clair Avenue: Stage II—Route alternatives—Technical Summary—Ministry of Transportation and Communications—March 1977). If such a study has not yet been completed, will the Minister indicate why his Ministry is considering building a new road connecting Weston Road and St. Clair Avenue by extending Maybank Avenue and the Lambton Spriar Bridge without such a traffic impact study. 227. *Mr. Stong*—Enquiry of the Ministry—(a) Will the Minister of Health review Ontario Regulation 599/75 under the Ambulance Act, and more particularly Sections 9 and 10 thereof, with a view to extending the deadline of the 1st day of August 1979 which deadline would cause the discontinuance of full-time employment as a driver attendant for anyone who has not by that date taken and obtained a pass standing in an emergency medical care examination set by the director pursuant to that regulation. (b) Will the Minister review the compulsory ambulance and emergency care courses offered by the College of Applied Arts and Technology, which are not available on a part-time basis, which require approximately 320 hours of study and the average annual tuition for which costs the student \$325.00, excluding examinations, so that those courses may be more accessible in terms of time and cost. (c) Will the Minister review the competency of the ambulance and emergency care courses offered in light of the failure rate in both the practical and theoretical aspects of the examinations set by the director pursuant to this regulation. (d) Will the Minister consider revising the regulation and allow for retraining as opposed to discontinuance of full-time employment by any candidate who is not successful in completing an ambulance and emergency care course or obtaining a pass standing in an emergency medical care examination. (e) Will the Minister consider establishing an association of ambulance driver attendants which, when set up, could operate on the same basis as the pilot project provided by the College of Physicians and Surgeons for its members and which pilot project calls for periodic re-examination of doctors with a view to requiring doctors to improve in the areas where they are deficient rather than cause dismissal or suspension from the College of Physicians and Surgeons. (f) Will the Minister act immediately to extend the August 1, 1979 deadline to allow those driver attendants who have not yet qualified pursuant to the regulation to do so, so that the already considerable investment in training and experience in these staff members will not be lost. *Tabled June 4th, 1979.*

How much money does the Ministry consider was paid in error and how many laboratories were involved in these questionable billings. 141. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not know or does he not agree that general hospitals cannot provide the specific kind of care or services that psychiatric hospitals can and do. That they attend upon and to different and distinct groups of patients in terms of length of care and the seriousness of the emotional disability. *Tabled April 19th, 1979.†††*

142. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health seriously contend that the Queen Street facility can or will into the future meet the projected increasing demands for hospitalization for the mentally ill as is documented in the McKinsey Report and as set out in the OPSEU brief which points out a deficiency of beds almost before you begin. *Tabled April 19th, 1979.†††*

143. *Mr. Lawlor*—Enquiry of the Ministry—What about the Day Care and particularly the out-patients services at Lakeshore. Does the Ministry of Health seriously pretend that the present needs, much more the future requirements, of these people will begin to be met. *Tabled April 19th, 1979.†††*

144. *Mr. Lawlor*—Enquiry of the Ministry—Does the Minister of Health not recognize on the basis of your own statistics that a new hospital will be necessary, no matter what, within a foreseeable time; and at a very much greater capital cost (including the acquirement of land) than as recommended in the Role Study. *Tabled April 19th, 1979.†††*

145. *Mr. Lawlor*—Enquiry of the Ministry—How can the Ministry of Health possibly close the Special Observation Unit which attends to patients under Lieutenant-Governor's warrants. *Tabled April 19th, 1979.†††*

146. *Mr. Lawlor*—Enquiry of the Ministry—What is the Ministry of Health thinking about in removing the Dialysis Unit to Whitby when the patients are located at the other end of the world. *Tabled April 19th, 1979. †††*
147. *Mr. Lawlor*—Enquiry of the Ministry—Since it was found impossible over a two-year or greater period to find a location for the Child and Adolescent Care Unit and that institution will remain on the grounds, what basis is there for a belief that the numerous other units can be accommodated elsewhere in the Lakeshore area. Where. And, in particular, the present valued and necessary Alcoholic program. *Tabled April 19th, 1979. †††*
148. *Mr. Lawlor*—Enquiry of the Ministry—What disposition does the Minister of Health intend to make of that building which was financed and constructed by the volunteers, who have been such a valuable asset to this hospital. *Tabled April 19th, 1979. †††*
149. *Mr. Lawlor*—Enquiry of the Ministry—Cannot some use be found by the Ministry of Health for the workshops and rehabilitation equipment and facilities fairly recently erected on the premises at considerable cost. *Tabled April 19th, 1979. †††*
150. *Mr. Lawlor*—Enquiry of the Ministry—In short, and as constantly new questions arise, does the Minister of Health not realize or even acknowledge that he is in the process of making a gross and irreparable blunder which his Government will soon learn to regret, in his unplanned and ill-considered move to close this facility against the best advice of his own hired consultants (\$120,000 worth) and the numerous, most directly involved social agencies and individuals. *Tabled April 19th, 1979. †††*
151. *Mr. Lawlor*—Enquiry of the Ministry—Is the Minister of Health not now prepared to reconsider the closing of Lakeshore Psychiatric Hospital on the basis of the numerous observations and comments made at public meetings, by way of correspondence, and by briefs submitted particularly by the Ontario Public Service Employees Union. *Tabled April 19th, 1979. †††*
152. *Mr. Lawlor*—Enquiry of the Ministry—Since I am often awakened at 3.00 a.m. in the morning by someone calling about a problem, and this has been known to happen to many other Members of the Ontario Legislature, does the Minister of Health really feel that such a disturbance of his sleep constitutes adequate grounds for closing the institution, as he intimates by his repeated, soulful reference to this matter. And in particular, does a fire arising out of actions of a patient in the Special Observation Unit so constitute any or adequate grounds. *Tabled April 19th, 1979. †††*
153. *Mr. Lawlor*—Enquiry of the Ministry—Will the Minister of Health not give good consideration to the perfectly reasonable suggestion made by the Member from Lakeshore that a planned, phased approach to this whole problem would be the best solution for all concerned. That is to say, that a new psychiatric hospital having, say, about 150 beds at its completion, be gradually con-

Would the Minister state the total number of specialists practising in each county, and would the Minister indicate how many of these specialists are still in OHIP. Would the Minister further indicate how many anaesthetists, obstetricians and gynecologists, surgeons, psychiatrists, and paediatricians there are in total in each county, and how many are still practising within OHIP. Would the Minister provide this information as of March 31 1979, December 31 1978, September 30 1978, June 30 1978, March 31 1978. Would the Minister also state the total number of general practitioners in each county and the number still within OHIP as of the same dates as noted above. *Tabled May 3rd, 1979. 182. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education act upon the request of the Community Association for Unionville Secondary Education (CAUSE) to provide a new high school in Unionville. Will the Minister review the development applications which provide for approximately 3,000 new homes in Unionville, 2,000 in Risebrough and 3,300 in Markham, the result of which will not only overcrowd both Markham District High School and Thornlea High School, but would call for the immediate construction of a secondary school in the Unionville area. Will the Minister immediately undertake to satisfy the need of the secondary school students in Unionville to be educated in their own community. *Tabled May 16th, 1979. Interim Answer May 29th, 1979. Approximate date information available June 8th, 1979.*

183. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education act upon the request of the Risebrough Community Association in the community of Markham, Ontario, to provide new and adequate school facilities to meet the growing educational needs in that area. Will the Minister inform herself of the situation which now exists, in that projected figures indicate that by September 1, 1979, 1000 units of the 1130 units being built will be occupied producing approximately 480 students seeking educational facilities. Will the Minister review the present policy which requires kindergarten children from this area to be bused to a school in Richmond Hill and which also sees children in grades one to five being bused to a small school where gymnastic and library facilities are non-existent. Will the Minister immediately review and provide adequate facilities in this community to meet the educational demands which will be in existence by September 1, 1979. *Tabled May 16th, 1979. Interim Answer May 29th, 1979. Approximate date information available June 8th, 1979.*

184. *Mr. Stong*—Enquiry of the Ministry—Will the Minister of Education cause an investigation to be made into the overcrowding conditions which exist at the German Mills Public School in Markham. Will the Minister explain the policy of the Ministry which appears to prefer the busing of pupils to distant empty classrooms in the Regional Municipality of York rather than construct new facilities or add on to existing facilities where circumstances warrant. Will the Minister review the policy of the Ministry which requires that prior to the building of a school, there exist sufficient number of children in the area to equal 80% of the projected capacity of the said school and apply that formula to the building of a school on the Flowerdale site in the Town of Markham, in order to accommodate the excess enrolment in the German Mills Public School which is equal to 123% of that school's designed capacity. Will the Minister review the immediate need for a new school on the Flowerdale site in the light of projected figures over the next five years which indicate that school-age children in the area will increase to approximately 900 and which figure does not take into account the fact that there is presently before the Ontario Municipal Board an application by a developer to build in the area an additional 190 townhouses. If this project is allowed to proceed the projected figures indicate that school enrolment will not decline until 1995. Will the Minister initiate a policy which would provide architecturally acceptable but movable school buildings to accommodate the shifting need of the school

population. How does the Minister reconcile the Ministry's policy of fiscal restraint which includes busing and which dictates against the welfare of children, with the more important need of providing adequate facilities so that the educational and social needs of children may be properly met in their own community environment. Will the Minister therefore satisfy the needs of the children in the German Mills area of Markham and build a second school on the Flowerdale site. *Tabled May 16th, 1979. 192. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education indicate what efforts beyond the funding of the Commission of Declining Enrollment it has undertaken to assist local school boards to deal with declining enrollment. Will the Ministry indicate the cash value to local school boards of these efforts. Secondly, in view of the recent reports that the Premier has stated that the Province has not lessened its commitment to education even though the proportion of the provincial budget allocated to education has declined from fiscal 1975/76 to fiscal 1979/80, would it be accurate to calculate the Province's savings from declining enrollment by calculating what the Province would have contributed had it maintained funding at the level existing in fiscal 1975/76 and subtracting the present level. If this is not the case, will the Ministry indicate how much money the Ministry has saved as a result of declining enrollment and what benefits accrue to local school boards as a result of declining enrollment. *Tabled May 17th, 1979. 200. *Mr. Mackenzie*—Enquiry of the Ministry—Will the Minister of Health inform the House as to:—(a) The number of children born with major health problems or physical defects considered to be the result of a lack of vaccination for German Measles over each of the last 5 years. (b) The number of citizens in Ontario who have not been adequately protected by vaccination for measles and rubella. (c) Whether there is any evidence of a more severe reaction to rubella or measles in any particular community or any immigrant group and whether there are more people not protected in any particular ethnic community. (d) Does the Ministry have any evidence which would indicate an increased rate of birth defects following an increased incidence of rubella. (e)

What steps are being taken to increase the vaccination rate against rubella and measles. *Tabled May 25th, 1979.*

201. *Mr. Mackenzie*—Enquiry of the Ministry—1. 203. *Mr. Bounsall*—Enquiry of the Ministry—Will the Ministry of Education clarify its position on access of members of the legislature to the reports submitted to the Ministry by elected local school boards. Can members of the legislature and their staffs have *immediate* access to these reports, particularly the annual June and September board reports, required by the Ministry. If for any reason the Ministry imposes restrictions on access to these documents, will the Ministry explain (a) the reason for the restrictions, (b) the procedure for having these restrictions waived. *Tabled May 28th, 1979.*

205. *Mr. Breagh*—Enquiry of the Ministry—Further to my question on the Order Paper, #45, would the Minister of Health state the actual number of patients who received a total of 825 electroshock treatments in 1978. Would the Minister state the number of women and men who received these treatments, and what was the average number of treatments received by sex and in total. *Tabled May 29th, 1979.*

206. *Mr. Conway*—Enquiry of the Ministry—Will the Minister of Health advise the House as to which sections of Bill 19, An Act to amend the Mental Health Act, are not proclaimed; in each instance, will he give: 1. a detailed explanation as to why each unproclaimed section has not been proclaimed, and 2. the approximate date he expects each unproclaimed section to be proclaimed. *Tabled May 29th, 1979.*

207. *Mr. Conway*—Enquiry of the Ministry—Will the Minister of Health advise the House as to the Ministry budget allocation for each Health Service Organization in the province of Ontario for each of the last three fiscal years. *Tabled May 29th, 1979.*

208. *Mr. Dukszta*—Enquiry of the Ministry—Would the Minister of Housing indicate whether there are any plans or whether there has been any discussion of such within the Ontario Housing Corporation to change the \$75 rent assessment for OHC tenants whose children are working. Are there any plans to assess such tenants for 25% of their children's earnings. Is any other percentage or scheme being considered. *Tabled May 31st, 1979.*

209. *Mr. Duksza*—Enquiry of the Ministry—What plans does the Minister of Housing have under consideration to alter or terminate the role of the Ministry of Housing in the development and operation of publicly assisted housing in Ontario. What studies does the Minister have available to him or in preparation by his Ministry to identify the continuing need for publicly assisted housing in Ontario. *Tabled May 31st, 1979.*
210. *Mr. Duksza*—Enquiry of the Ministry—What plans are there for the Community Development section of the Ministry of Housing. How many staff have been employed in the following sections of the Ministry in each of the last three years, and what plans are there for further employment and programs within: Community Housing Division, Community Land Development Division, and its Community Land Development Branch specifically. *Tabled May 31st, 1979.*
211. *Mr. Duksza*—Enquiry of the Ministry—How many requests were made by municipalities last year to the Ministry of Housing's Ontario Home Renewal Program. How many were funded and what was the total value paid by municipality. How many requests were not funded and what was the total value. What studies has the Ministry made of the need and demand for such OHRP grants and will the Minister table any such studies which he has. What studies have been made of the adequacy of \$20,000,000 being allotted for this program, and will the Minister table any such studies. *Tabled May 31st, 1979.*
212. *Mr. Duksza*—Enquiry of the Ministry—Will the Minister of Transportation and Communication table the detailed traffic study of the impact of widening Weston Road and its implications for traffic south of St. Clair Avenue, a study promised in the technical report describing various alternative alignments in 1977. (P. B-9, Northwest Metro Arterial Street—Eglinton Avenue to St. Clair Avenue: Stage II—Route alternatives—Technical Summary—Ministry of Transportation and Communications—March 1977). If such a study has not yet been completed, will the Minister indicate why his Ministry is considering building a new road connecting Weston Road and St. Clair Avenue by extending Maybank Avenue and the Lambton Spriar Bridge without such a traffic impact study. Will the Minister indicate if it is the policy of the Ministry to extend major highways such as the 400 into residential neighbourhoods without doing a traffic study to assess traffic impact and costs on effected areas. *Tabled May 31st, 1979.*
213. *Mr. Lawlor*—Enquiry of the Ministry—Would the Minister of Health table all reports which he has received from Dr. Lynes' Out-Patient Transfer Committee regarding the closing of Lakeshore Psychiatric Hospital. *Tabled May 31st, 1979.*

Would the Minister provide this data in terms of distribution by county and in total. Would the Minister indicate what is the Ministry's criterion for determining who is in full-time practice in terms of gross income received per year or in terms of volume of billings per year. *Tabled June 1st, 1979.*

215. *Mr. Breagh*—Enquiry of the Ministry—Would the Minister of Health undertake to inform the House on a monthly basis of the numbers of physicians who are no longer participating in the Ontario Health Insurance Program, and the number who have given three months' notice that they wish to bill their patients directly. *Tabled June 1st, 1979.*
216. *Mr. Breagh*—Enquiry of the Ministry—Would the Minister of Health table any studies which have been conducted by or for the Ministry of Health or the Government of Ontario regarding the cost of including for OHIP coverage prosthetic devices, wheelchairs and any other non-insured services or equipment not presently covered by OHIP. *Tabled June 1st, 1979.*
217. *Mr. Breagh*—Question of the Ministry—Would the Minister of Health inform the House about who were the members of the "Public Health Review Implementation Group", and how were they selected. How often did this group meet after its formation. What recommendations did this group make to the Ministry, and would the Minister table the full texts of any reports which were made by the group to him. What timetable has the Minister adopted for the implementation of any recommendations with which he agrees. *Tabled June 1st, 1979.*

220. *Mr. Mackenzie*—Enquiry of the Ministry—Will the Ministry investigate the reason why OECA purchased 2 miniature cameras "electronic field production units" at approximately \$80,000. apiece, fully equipped, which for 3-4 months were largely unused, while they continued to rent such equipment at \$600.00 per day. *Tabled June 1st, 1979.*
221. *Mr. Mackenzie*—Enquiry of the Ministry—Will the Ministry adequately explain why at OECA there are only 184 staff eligible for Union membership while there are 207 persons in management. *Tabled June 1st, 1979.*
222. *Mr. Breagh*—Enquiry of the Ministry—Would the Minister of Health indicate to the House what is the total number of persons in nursing homes at present. 227. *Mr. Stong*—Enquiry of the Ministry—(a) Will the Minister of Health review Ontario Regulation 599/75 under the Ambulance Act, and more particularly Sections 9 and 10 thereof, with a view to extending the deadline of the 1st day of August 1979 which deadline would cause the discontinuance of full-time employment as a driver attendant for anyone who has not by that date taken and obtained a pass standing in an emergency medical care examination set by the director pursuant to that regulation. (b) Will the Minister review the compulsory ambulance and emergency care courses offered by the College of Applied Arts and Technology, which are not available on a part-time basis, which require approximately 320 hours of study and the average annual tuition for which costs the student \$325.00, excluding examinations, so that those courses may be more accessible in terms of time and cost. (c) Will the Minister review the competency of the ambulance and emergency care courses offered in light of the failure rate in both the practical and theoretical aspects of the examinations set by the director pursuant to this regulation. (d) Will the Minister consider revising the regulation and allow for retraining as opposed to discontinuance of full-time employment by any candidate who is not successful in completing an ambulance and emergency care course or obtaining a pass standing in an emergency medical care examination. (e) Will the Minister consider establishing an association of ambulance driver attendants which, when set up, could operate on the same basis as the pilot project provided by the College of Physicians and Surgeons for its members and which pilot project calls for periodic re-examination of doctors with a view to requiring doctors to improve in the areas where they are deficient rather than cause dismissal or suspension from the College of Physicians and Surgeons. (f) Will the Minister act immediately to extend the August 1, 1979 deadline to allow those driver attendants who have not yet qualified pursuant to the regulation to do so, so that the already considerable investment in training and experience in these staff members will not be lost. *Tabled June 4th, 1979.*

228. *Mr. Cassidy*—Enquiry of the Ministry—Will the Ministry table a list of (a) new programs, (b) legislation, (c) regulations for which an economic impact analysis has been undertaken since the establishment early in 1978 of the Cabinet policy requiring the production of such studies. Will the Minister also indicate the approximate number of man-hours of work spent on each of these studies and the public costs incurred. *Tabled June 4th, 1979.*
229. *Mr. Cassidy*—Enquiry of the Ministry—Will the Ministry indicate whether or not economic impact analyses have been done, since the tabling of the Budget on April 10/79, on major items such as the changes to The Mining Tax Act, abolition of succession duties, the raising of OHIP premiums, the creation of the Employment Development Fund, and Small Business Development Corporations. *Tabled June 4th, 1979.*

How much money does the Ministry consider was paid in error and how many laboratories were involved in these questionable billings. When will the necessary steps be taken to recover these amounts. *Tabled June 4th, 1979.*
236. *Mr. Di Santo*—Enquiry of the Ministry—Would the Ministry calculate the total annual spending on goods and services for the Ontario Government by Ministry, by agency and by public corporation. In the answer to the above-mentioned question, and in the general legislative grant announcement, the Ministry omitted any direct reference to finance. Can the school boards of this province anticipate additional financial support from the province to help them meet the needs of children requiring special education. *Tabled June 5th, 1979.*

Will the Ministry indicate the cash value to local school boards of these efforts. Secondly, in view of the recent reports that the Premier has stated that the Province has not lessened its commitment to education even though the proportion of the provincial budget allocated to education has declined from fiscal 1975/76 to fiscal 1979/80, would it be accurate to calculate the Province's savings from declining enrollment by calculating what the Province would have contributed had it maintained funding at the level existing in fiscal 1975/76 and subtracting the present level. If this is not the case, will the Ministry indicate how much money the Ministry has saved as a result of declining enrollment and what benefits accrue to local school boards as a result of declining enrollment. *Tabled May 17th, 1979. (f) Will the Minister act immediately to extend the August 1, 1979 deadline to allow those driver attendants who have not yet qualified pursuant to the regulation to do so, so that the already considerable investment in training and experience in these staff members will not be lost. *Tabled June 4th, 1979.*

*Mr. Ruston*—Resolution—That, in the opinion of this House, the Government of Ontario should initiate serious negotiations with the Ontario Medical Association to ensure that Ontario doctors, in particular general practitioners, are compensated fairly in comparison with doctors in other North American jurisdictions, and that once such a compensation scheme is decided upon, those doctors who feel it is inadequate and who opt out of OHIP be obligated to opt out completely. And furthermore, that the Government of Ontario review the whole field of institutional health care to ensure that adequate personnel and adequate beds—active treatment, chronic care and nursing home—are available to care for the needs of all patients. *To be debated June 21st, 1979.*

## NOTICES

### PRIVATE MEMBERS' MOTION TABLED ON JUNE 19th, 1979

*(Private Members' Motions, other than those directly related to Government Orders, will be published on the Notice Paper each Thursday.)*

25. *Mr. Young*—Resolution—That, in the opinion of this House, the Government of Ontario should take immediate steps to: (a) develop standards and provide support for community residential care services, such as group homes and half-way houses; (b) consider the provision of provincial funding support for local agencies operating that special category of boarding and lodging homes which cater to emotionally, physically or mentally disadvantaged adults; and (c) to provide community support services for the above facilities. And, that in particular: 1. For the purpose of rationalizing the provision of community residential care services, the Government should immediately designate responsibility to a single provincial Ministry, either the Ministry of Community and Social Services, or the Ministry of Health, for the provision of administrative coordination of the existing and future community residential care services. 2. For the purpose of ensuring minimum standards of operation for community care residences the Government should license and regulate all such facilities especially with regards to staffing, recreational and therapeutic programs, etc. Adequate inspection and enforcement procedures should also be developed to ensure compliance with the regulations and licensing requirements. 3. For the purpose of ensuring the appropriate provision of community care residences, the Government should: (i) devise criteria to define the population in need of community residential care services; (ii) design the services needed to meet the requirements of this population; (iii) and, develop provincial funding mechanisms for program, capital and operating costs. 4. For the purpose of solving the problems that have occurred in attempting to locate community care residences, the Government should introduce legislation to amend section 35 (1) of *The Planning Act* so as to require municipalities to permit the establishment of licensed community care residences in reasonable proportion to the local populations. 5. For the purpose of ensuring close cooperation between the Province and the municipalities, the Government should form a Community Liaison Section within the designated Ministry to confer with communities regarding the location, size, and type of community residential care facilities in municipalities. 6. For the purpose of ensuring that adults with special personal care needs, living in boarding and lodging homes, receive the services they require, the Government should encourage municipalities to: (i) consider the licensing of a special category of boarding and lodging homes which cater to such adults; (ii) and, to establish for that special category whatever additional personal care and physical facility municipal standards may be necessary. 7. For the purpose of promoting the operation of these special boarding and lodging homes by volunteer, non-profit and municipal agencies, the Government should consider funding these agencies for the capital costs of providing such shelter. 8. For the purposes of improving standards of operation in those boarding and lodging homes within this special category, which are privately owned and operated, the Government should consider providing funds for support services such as public health, social services, community police, and educational programs. 9. The Government should consider devoting a greater portion of provincial funds to the develop-

ment of a comprehensive body of community support services, including more appropriate support programs, for the physically, mentally, or emotionally handicapped or disadvantaged adults. *To be debated on the second Thursday after summer recess.*

## PRIVATE MEMBERS' MOTIONS

3. *Mr. Wildman*—Resolution—That, in the opinion of this House, the Government should introduce legislation amending The Retail Sales Tax Act to provide a specific exemption from retail sales tax to the purchaser of non-portable storage devices such as bins, storage containers and silos that are designed for farm use and purchased by a person engaged in the business of farming.
5. *Withdrawn.*
10. *Mr. Reid* (Rainy River)—Resolution—That this House is in favour of setting up a Joint Committee with the States of the United States along Ontario's borders for purposes of discussing mutual problems.
11. *Mr. Kennedy*—Resolution—That in the opinion of this House The Election Act should be amended to reduce the maximum period of time for a general election to thirty days.
12. *Mr. Smith* (Hamilton West)—Resolution—The Legislature of Ontario requests the Parliament of Canada to issue a statement in condemnation of the crime of genocide perpetrated against the Armenian people by the Government of Turkey in existence during World War I.
14. *Mr. Nixon*—Resolution—That this House approve of the implementation of a new Ontario Disaster Relief Programme funded on the basis of the needs of the communities concerned, and that a system of Government supported flood insurance be established covering property in the flood plains.
15. *Withdrawn.*
16. *Mr. Makarchuk*—Resolution—That in the opinion of this House legislation should be introduced by the Government of Ontario to provide financial recompense to Canadian businesses when the provincial government or institutions which receive more than 50% of their funding from the public do not purchase, goods, food, or services which are available from Canadian sources and which are no more than 10% more expensive than similar goods, foods or services available from non-Canadian sources.
20. *Mr. Ramsay*—Resolution—That, in the opinion of this House the Government should give consideration to the reduction of the writ period for Provincial General Elections and By-Elections to a length of 30 days. *To be debated June 21st, 1979.*
21. *Mr. Ruston*—Resolution—That, in the opinion of this House, the Government of Ontario should initiate serious negotiations with the Ontario Medical Association to ensure that Ontario doctors, in particular general practitioners, are compensated fairly in comparison with doctors in other North American jurisdictions, and that once such a compensation scheme is decided upon, those doctors who feel it is inadequate and who opt out of OHIP be obligated to opt out completely. And furthermore, that the Government of Ontario review the whole field of institutional health care to ensure that adequate personnel and adequate beds — active treatment, chronic care and nursing home — are available to care for the needs of all patients. *To be debated June 21st, 1979.*

22. *Mr. Reid* (Rainy River)—Resolution—That, an Order of the House do issue for the production of all Public Opinion Polls commissioned by the Ontario Government from April 1, 1974 to April 1, 1979. *To be debated on the third Thursday after summer recess.*
24. *Mr. Bounsall*—Resolution—That this House urge the Government of Ontario to implement immediately in legislation as amendments to the Ontario Human Rights Code, all the recommendations contained in the Ontario Human Rights Commission Report—*Life Together: A Report on Human Rights in Ontario*—particularly inasmuch as it has now been two years since that report was received, and almost five years since one Minister of Labour committed the Government to introducing amendments at the next session.
25. *Mr. Young*—Resolution—That, in the opinion of this House, the Government of Ontario should take immediate steps to: (a) develop standards and provide support for community residential care services, such as group homes and half-way houses; (b) consider the provision of provincial funding support for local agencies operating that special category of boarding and lodging homes which cater to emotionally, physically or mentally disadvantaged adults; and (c) to provide community support services for the above facilities. And, that in particular: 1. For the purpose of rationalizing the provision of community residential care services, the Government should immediately designate responsibility to a single provincial Ministry, either the Ministry of Community and Social Services, or the Ministry of Health, for the provision of administrative coordination of the existing and future community residential care services. 2. For the purpose of ensuring minimum standards of operation for community care residences the Government should license and regulate all such facilities especially with regards to staffing, recreational and therapeutic programs, etc. Adequate inspection and enforcement procedures should also be developed to ensure compliance with the regulations and licensing requirements. 3. For the purpose of ensuring the appropriate provision of community care residences, the Government should: (i) devise criteria to define the population in need of community residential care services; (ii) design the services needed to meet the requirements of this population; (iii) and, develop provincial funding mechanisms for program, capital and operating costs. 4. For the purpose of solving the problems that have occurred in attempting to locate community care residences, the Government should introduce legislation to amend section 35 (1) of *The Planning Act* so as to require municipalities to permit the establishment of licensed community care residences in reasonable proportion to the local populations. 5. For the purpose of ensuring close cooperation between the Province and the municipalities, the Government should form a Community Liaison Section within the designated Ministry to confer with communities regarding the location, size, and type of community residential care facilities in municipalities. 6. For the purpose of ensuring that adults with special personal care needs, living in boarding and lodging homes, receive the services they require, the Government should encourage municipalities to: (i) consider the licensing of a special category of boarding and lodging homes which cater to such adults; (ii) and, to establish for that special category whatever additional personal care and physical facility municipal standards may be necessary. 7. For the purpose of promoting the operation of these special boarding and lodging homes by volunteer, non-profit and municipal agencies, the Government should consider funding these agencies

for the capital costs of providing such shelter. 8. For the purposes of improving standards of operation in those boarding and lodging homes within this special category, which are privately owned and operated, the Government should consider providing funds for support services such as public health, social services, community police, and educational programs. 9. The Government should consider devoting a greater portion of provincial funds to the development of a comprehensive body of community support services, including more appropriate support programs, for the physically, mentally, or emotionally handicapped or disadvantaged adults. *To be debated on the second Thursday after summer recess.*

227. *Mr. Stong*—Enquiry of the Ministry—(a) Will the Minister of Health review Ontario Regulation 599/75 under the Ambulance Act, and more particularly Sections 9 and 10 thereof, with a view to extending the deadline of the 1st day of August 1979 which deadline would cause the discontinuance of full-time employment as a driver attendant for anyone who has not by that date taken and obtained a pass standing in an emergency medical care examination set by the director pursuant to that regulation. (f) Will the Minister act immediately to extend the August 1, 1979 deadline to allow those driver attendants who have not yet qualified pursuant to the regulation to do so, so that the already considerable investment in training and experience in these staff members will not be lost. *Tabled June 4th, 1979. *Mr. Young*—Resolution—That, in the opinion of this House, the Government of Ontario should take immediate steps to: (a) develop standards and provide support for community residential care services, such as group homes and half-way houses; (b) consider the provision of provincial funding support for local agencies operating that special category of boarding and lodging homes which cater to emotionally, physically or mentally disadvantaged adults; and (c) to provide community support services for the above facilities. And, that in particular: 1. For the purpose of rationalizing the provision of community residential care services, the Government should immediately designate responsibility to a single provincial Ministry, either the Ministry of Community and Social Services, or the Ministry of Health, for the provision of administrative coordination of the existing and future community residential care services. 2. For the purpose of ensuring minimum standards of operation for community care residences the Government should license and regulate all such facilities especially with regards to staffing, recreational and therapeutic programs, etc. Adequate inspection and enforcement procedures should also be developed to ensure compliance with the regulations and licensing requirements. 3. For the purpose of ensuring the appropriate provision of community care residences, the Government should: (i) devise criteria to define the population in need of community residential care services; (ii) design the services needed to meet the requirements of this population; (iii) and, develop provincial funding mechanisms for program, capital and operating costs. 4. For the purpose of solving the problems that have occurred in attempting to locate community care residences, the Government should introduce legislation to amend section 35 (1) of *The Planning Act* so as to require municipalities to permit the establishment of licensed community care residences in reasonable proportion to the local populations. 5. For the purpose of ensuring close cooperation between the Province and the municipalities, the Government should form a Community Liaison Section within the designated Ministry to confer with communities regarding the location, size, and type of community residential care facilities in municipalities. 6. For the purpose of ensuring that adults with special personal care needs, living in boarding and lodging homes, receive the services they require, the Government should encourage municipalities to: (i) consider the licensing of a special category of boarding and lodging homes which cater to such adults; (ii) and, to establish for that special category whatever additional personal care and physical facility municipal standards may be necessary. 7. For the purpose of promoting the operation of these special boarding and lodging homes by volunteer, non-profit and municipal agencies, the Government should consider funding these agencies for the capital costs of providing such shelter. 8. For the purposes of improving standards of operation in those boarding and lodging homes within this special category, which are privately owned and operated, the Government should consider providing funds for support services such as public health, social services, community police, and educational programs. 9. The Government should consider devoting a greater portion of provincial funds to the development of a comprehensive body of community support services, including more appropriate support programs, for the physically, mentally, or emotionally handicapped or disadvantaged adults. *To be debated on the second Thursday after summer recess.*

Ballot Item No. 28

*Mr. Young—Resolution—That, in the opinion of this House, the Government of Ontario should take immediate steps to: (a) develop standards and provide support for community residential care services, such as group homes and half-way houses; (b) consider the provision of provincial funding support for local agencies operating that special category of boarding and lodging homes which cater to emotionally, physically or mentally disadvantaged adults; and (c) to provide community support services for the above facilities. And, that in particular: 1. For the purpose of rationalizing the provision of community residential care services, the Government should immediately designate responsibility to a single provincial Ministry, either the Ministry of Community and Social Services, or the Ministry of Health, for the provision of administrative coordination of the existing and future community residential care services. 2. For*

the purpose of ensuring minimum standards of operation for community care residences the Government should license and regulate all such facilities especially with regards to staffing, recreational and therapeutic programs, etc. Adequate inspection and enforcement procedures should also be developed to ensure compliance with the regulations and licensing requirements. 3. For the purpose of ensuring the appropriate provision of community care residences, the Government should: (i) devise criteria to define the population in need of community residential care services; (ii) design the services needed to meet the requirements of this population; (iii) and, develop provincial funding mechanisms for program, capital and operating costs. 4. 15. *Withdrawn.*
16. *Mr. Makarchuk*—Resolution—That in the opinion of this House legislation should be introduced by the Government of Ontario to provide financial recompense to Canadian businesses when the provincial government or institutions which receive more than 50% of their funding from the public do not purchase, goods, food, or services which are available from Canadian sources and which are no more than 10% more expensive than similar goods, foods or services available from non-Canadian sources.
22. *Mr. Reid (Rainy River)*—Resolution—That, an Order of the House do issue for the production of all Public Opinion Polls commissioned by the Ontario Government from April 1, 1974 to April 1, 1979. *To be debated October 25th, 1979.*
24. *Mr. Bounsall*—Resolution—That this House urge the Government of Ontario to implement immediately in legislation as amendments to the Ontario Human Rights Code, all the recommendations contained in the Ontario Human Rights Commission Report—*Life Together: A Report on Human Rights in Ontario*—particularly inasmuch as it has now been two years since that report was received, and almost five years since one Minister of Labour committed the Government to introducing amendments at the next session.
25. *Mr. Young*—Resolution—That, in the opinion of this House, the Government of Ontario should take immediate steps to: (a) develop standards and provide support for community residential care services, such as group homes and half-way houses; (b) consider the provision of provincial funding support for local agencies operating that special category of boarding and lodging homes which cater to emotionally, physically or mentally disadvantaged adults; and (c) to provide community support services for the above facilities. And, that in particular: 1. For the purpose of rationalizing the provision of community residential care services, the Government should immediately designate responsibility to a single provincial Ministry, either the Ministry of Community and Social Services, or the Ministry of Health, for the provision of administrative coordination of the existing and future community residential care services. 2. For the purpose of ensuring minimum standards of operation for community care residences the Government should license and regulate all such facilities especially with regards to staffing, recreational and therapeutic programs, etc. Adequate inspection and enforcement procedures should also be developed to ensure compliance with the regulations and licensing requirements. 3. For the purpose of ensuring the appropriate provision of community care residences, the Government should: (i) devise criteria to define the population in need of community residential care services; (ii) design the services needed to meet the requirements of this population; (iii) and, develop provincial funding mechanisms for program, capital and operating costs. 4. For the purpose of solving the problems that have occurred in attempting to locate community care residences, the Government should introduce legislation to

amend section 35 (1) of *The Planning Act* so as to require municipalities to permit the establishment of licensed community care residences in reasonable proportion to the local populations. 5. For the purpose of ensuring close cooperation between the Province and the municipalities, the Government should form a Community Liaison Section within the designated Ministry to confer with communities regarding the location, size, and type of community residential care facilities in municipalities. 6. For the purpose of ensuring that adults with special personal care needs, living in boarding and lodging homes, receive the services they require, the Government should encourage municipalities to: (i) consider the licensing of a special category of boarding and lodging homes which cater to such adults; (ii) and, to establish for that special category whatever additional personal care and physical facility municipal standards may be necessary. 7. For the purpose of promoting the operation of these special boarding and lodging homes by volunteer, non-profit and municipal agencies, the Government should consider funding these agencies for the capital costs of providing such shelter. 8. For the purposes of improving standards of operation in those boarding and lodging homes within this special category, which are privately owned and operated, the Government should consider providing funds for support services such as public health, social services, community police, and educational programs. 9. The Government should consider devoting a greater portion of provincial funds to the development of a comprehensive body of community support services, including more appropriate support programs, for the physically, mentally, or emotionally handicapped or disadvantaged adults. *To be debated October 18th, 1979.*

26. *Mr. Smith* (Hamilton West)—Resolution—The Legislature of Ontario requests that the Government of Canada be urged to use every effort and means to secure the release of Yuriy Shukhevych and Lev Lukianenko from Soviet imprisonment and the compliance of the Government of the USSR with the letter and spirit of the Helsinki accords and the Charter of Human Rights.
  27. *Mr. Haggerty*—Resolution—That, in the opinion of this House, no approval be granted for any permanent nuclear waste repository in Ontario, without the specific approval of the Ontario Legislature.
  28. *Mr. Renwick*—Resolution—That, nearing a time of crisis and decision for Canada, a Committee of this House be named immediately to review the present proposals and positions of this government in relation to national unity and related constitutional issues, so that the position of this House may be made clear, particularly as the positions of the governments, Federal and Provincial, of the Task Force on Canadian Unity and other concerned interested bodies have now been published; and that the Committee be required to recommend to this House the policy and proposals for Ontario which will best ensure the continuing unity of Canada; the said Committee to report not later than December 31, 1979.

the above facilities. And, that in particular: 1. For the purpose of rationalizing the provision of community residential care services, the Government should immediately designate responsibility to a single provincial Ministry, either the Ministry of Community and Social Services, or the Ministry of Health, for the provision of administrative coordination of the existing and future community residential care services. 2. For the purpose of ensuring minimum standards of operation for community care residences the Government should license and regulate all such facilities especially with regards to staffing, recreational and therapeutic programs, etc. Adequate inspection and enforcement procedures should also be developed to ensure compliance with the regulations and licensing requirements. 3. For the purpose of ensuring the appropriate provision of community care residences, the Government should: (i) devise criteria to define the population in need of community residential care services; (ii) design the services needed to meet the requirements of this population; (iii) and, develop provincial funding mechanisms for program, capital and operating costs. 4. For the purpose of solving the problems that have occurred in attempting to locate community care residences, the Government should introduce legislation to amend section 35 (1) of *The Planning Act* so as to require municipalities to permit the establishment of licensed community care residences in reasonable proportion to the local populations. 5. For the purpose of ensuring close cooperation between the Province and the municipalities, the Government should form a Community Liaison Section within the designated Ministry to confer with communities regarding the location, size, and type of community residential care facilities in municipalities. 6. For the purpose of ensuring that adults with special personal care needs, living in boarding and lodging homes, receive the services they require, the Government should encourage municipalities to: (i) consider the licensing of a special category of boarding and lodging homes which cater to such adults; (ii) and, to establish for that special category whatever additional personal care and physical facility municipal standards may be necessary. 7. For the purpose of promoting the operation of these special boarding and lodging homes by volunteer, non-profit and municipal agencies, the Government should consider funding these agencies for the capital costs of providing such shelter. 8. For the purposes of improving standards of operation in those boarding and lodging homes within this special category, which are privately owned and operated, the Government should consider providing funds for support services such as public health, social services, community police, and educational programs. 9. The Government should consider devoting a greater portion of provincial funds to the development of a comprehensive body of community support services, including more appropriate support programs, for the physically, mentally, or emotionally handicapped or disadvantaged adults. *To be debated on October 18th, 1979.*

## NOTICES

PRIVATE MEMBERS' MOTIONS TABLED ON  
OCTOBER 11th, 1979

*(Private Members' Motions, other than those directly related to Government Orders, will be published on the Notice Paper each Thursday.)*

30. *Mr. Cassidy*—Resolution—That this House calls on the Government of Canada to keep PetroCanada as a viable, publicly-owned and fully-integrated national oil company and not to permit any of its operations to be sold into private hands.
  31. *Mr. Smith* (Hamilton West)—Resolution—That the Legislative Assembly of Ontario, noting reports that the Government of Canada intends to increase the price of domestic crude oil by as much as \$5 a barrel, and the price of natural gas by a corresponding amount on an energy equivalent basis, 1. Expresses its deep concern that such increases will greatly harm the consumers of Ontario and Canada generally, and will have a serious inflationary and recessionary effect on the Ontario economy; 2. Opposes any increase at this time in the prices of crude oil and of natural gas which results in windfall revenues and profits for the petroleum industry and the producing provinces; 3. Endorses the policy of one base price for crude oil across Canada and the subsidization of foreign imports of crude oil which that policy entails; 4. Supports the use of public funds for a greatly expanded program for energy conservation and the development of renewable energy supplies and systems; 5. Advocates, as interim measures, the imposition of federal excise taxes on crude oil and natural gas for the purpose of subsidizing imports and funding energy conservation and renewable energy programs; 6. Urges that such excise taxes be kept in place pending review and reform of the federal government's Equalization Policy and payments, with particular regard to the grossly inadequate weight now given to provincial oil and gas revenues as a factor in the Equalization Formula. And further, that the Legislative Assembly requests Mr. Speaker to transmit this Resolution forthwith to the Government and Parliament of Canada, and requests the Government of Ontario, in its discussions with the governments of Canada and other provinces to reflect the views expressed herein diligently and in good faith.

Ballot Item No. 28

*Mr. Young*—Resolution—That, in the opinion of this House, the Government of Ontario should take immediate steps to: (a) develop standards and provide support for community residential care services, such as group homes and half-way houses; (b) consider the provision of provincial funding support for local agencies operating that special category of boarding and lodging homes which cater to emotionally, physically or mentally disadvantaged adults; and (c) to provide community support services for the above facilities. And, that in particular: 1. For the purpose of rationalizing the provision of community residential care services, the Government should immediately designate responsibility to a single provincial Ministry, either the Ministry of Community and Social Services, or the Ministry of Health, for the provision of administrative coordination of the existing and future community residential care services. 2. For the purpose of ensuring minimum standards of operation for community care residences the Government should license and regulate all such facilities especially with regards to staffing, recreational and therapeutic programs, etc. Adequate inspection and enforcement procedures should also be developed to ensure compliance with the regulations and licensing requirements. 3. For the purpose of ensuring the appropriate

provision of community care residences, the Government should: (i) devise criteria to define the population in need of community residential care services; (ii) design the services needed to meet the requirements of this population; (iii) and, develop provincial funding mechanisms for program, capital and operating costs. 4. For the purpose of solving the problems that have occurred in attempting to locate community care residences, the Government should introduce legislation to amend section 35 (1) of *The Planning Act* so as to require municipalities to permit the establishment of licensed community care residences in reasonable proportion to the local populations. 5. For the purpose of ensuring close cooperation between the Province and the municipalities, the Government should form a Community Liaison Section within the designated Ministry to confer with communities regarding the location, size, and type of community residential care facilities in municipalities. 6. For the purpose of ensuring that adults with special personal care needs, living in boarding and lodging homes, receive the services they require, the Government should encourage municipalities to: (i) consider the licensing of a special category of boarding and lodging homes which cater to such adults; (ii) and, to establish for that special category whatever additional personal care and physical facility municipal standards may be necessary. 7. For the purpose of promoting the operation of these special boarding and lodging homes by volunteer, non-profit and municipal agencies, the Government should consider funding these agencies for the capital costs of providing such shelter. 8. For the purposes of improving standards of operation in those boarding and lodging homes within this special category, which are privately owned and operated, the Government should consider providing funds for support services such as public health, social services, community police, and educational programs. 9. The Government should consider devoting a greater portion of provincial funds to the development of a comprehensive body of community support services, including more appropriate support programs, for the physically, mentally, or emotionally handicapped or disadvantaged adults. *To be debated on October 18th, 1979.*

Ballot Item No. 28

*Mr. Young*—Resolution—<sup>1</sup>That, in the opinion of this House, the Government of Ontario should take immediate steps to: (a) develop standards and provide support for community residential care services, such as group homes and half-way houses; (b) consider the provision of provincial funding support for local agencies operating that special category of boarding and lodging homes which cater to emotionally, physically or mentally disadvantaged adults; and (c) to provide community support services for the above facilities. And, that in particular: 1. For the purpose of rationalizing the provision of community residential care services, the Government should immediately designate responsibility to a single provincial Ministry, either the Ministry of Community and Social Services, or the Ministry of Health, for the provision of administrative coordination of the existing and future community residential care services. 2. For the purpose of ensuring minimum standards of operation for community care residences the Government should license and regulate all such facilities especially with regards to staffing, recreational and therapeutic programs, etc. Adequate inspection and enforcement procedures should also be developed to ensure compliance with the regulations and licensing requirements. 3. For the purpose of ensuring the appropriate

provision of community care residences, the Government should: (i) devise criteria to define the population in need of community residential care services; (ii) design the services needed to meet the requirements of this population; (iii) and, develop provincial funding mechanisms for program, capital and operating costs. 4. For the purpose of solving the problems that have occurred in attempting to locate community care residences, the Government should introduce legislation to amend section 35 (1) of *The Planning Act* so as to require municipalities to permit the establishment of licensed community care residences in reasonable proportion to the local populations. 5. For the purpose of ensuring close cooperation between the Province and the municipalities, the Government should form a Community Liaison Section within the designated Ministry to confer with communities regarding the location, size, and type of community residential care facilities in municipalities. 6. For the purpose of ensuring that adults with special personal care needs, living in boarding and lodging homes, receive the services they require, the Government should encourage municipalities to: (i) consider the licensing of a special category of boarding and lodging homes which cater to such adults; (ii) and, to establish for that special category whatever additional personal care and physical facility municipal standards may be necessary. 7. For the purpose of promoting the operation of these special boarding and lodging homes by volunteer, non-profit and municipal agencies, the Government should consider funding these agencies for the capital costs of providing such shelter. 8. For the purposes of improving standards of operation in those boarding and lodging homes within this special category, which are privately owned and operated, the Government should consider providing funds for support services such as public health, social services, community police, and educational programs. 9. The Government should consider devoting a greater portion of provincial funds to the development of a comprehensive body of community support services, including more appropriate support programs, for the physically, mentally, or emotionally handicapped or disadvantaged adults. *To be debated on October 18th, 1979.*

*Mr. Young*—Resolution—That, in the opinion of this House, the Government of Ontario should take immediate steps to: (a) develop standards and provide support for community residential care services, such as group homes and half-way houses; (b) consider the provision of provincial funding support for local agencies operating that special category of boarding and lodging homes which cater to emotionally, physically or mentally disadvantaged adults; and (c) to provide community support services for the above facilities. And, that in particular: 1. For the purpose of rationalizing the provision of community residential care services, the Government should immediately designate responsibility to a single provincial Ministry, either the Ministry of Community and Social Services, or the Ministry of Health, for the provision of administrative coordination of the existing and future community residential care services. 2. ### PRIVATE MEMBERS' MOTIONS

3. *Mr. Wildman*—Resolution—That, in the opinion of this House, the Government should introduce legislation amending The Retail Sales Tax Act to provide a specific exemption from retail sales tax to the purchaser of non-portable storage devices such as bins, storage containers and silos that are designed for farm use and purchased by a person engaged in the business of farming.
5. *Withdrawn.*
10. *Mr. Reid* (Rainy River)—Resolution—That this House is in favour of setting up a Joint Committee with the States of the United States along Ontario's borders for purposes of discussing mutual problems.
11. *Mr. Kennedy*—Resolution—That in the opinion of this House The Election Act should be amended to reduce the maximum period of time for a general election to thirty days.

14. *Mr. Nixon*—Resolution—That this House approve of the implementation of a new Ontario Disaster Relief Programme funded on the basis of the needs of the communities concerned, and that a system of Government supported flood insurance be established covering property in the flood plains.
15. *Withdrawn.*
16. *Mr. Makarchuk*—Resolution—That in the opinion of this House legislation should be introduced by the Government of Ontario to provide financial recompense to Canadian businesses when the provincial government or institutions which receive more than 50% of their funding from the public do not purchase, goods, food, or services which are available from Canadian sources and which are no more than 10% more expensive than similar goods, foods or services available from non-Canadian sources.
22. *Mr. Reid* (Rainy River)—Resolution—That, an Order of the House do issue for the production of all Public Opinion Polls commissioned by the Ontario Government from April 1, 1974 to April 1, 1979. *To be debated October 25th, 1979.*
24. *Mr. Bounsall*—Resolution—That this House urge the Government of Ontario to implement immediately in legislation as amendments to the Ontario Human Rights Code, all the recommendations contained in the Ontario Human Rights Commission Report—*Life Together: A Report on Human Rights in Ontario*—particularly inasmuch as it has now been two years since that report was received, and almost five years since one Minister of Labour committed the Government to introducing amendments at the next session.

25. *Mr. Young*—Resolution—That, in the opinion of this House, the Government of Ontario should take immediate steps to: (a) develop standards and provide support for community residential care services, such as group homes and half-way houses; (b) consider the provision of provincial funding support for local agencies operating that special category of boarding and lodging homes which cater to emotionally, physically or mentally disadvantaged adults; and (c) to provide community support services for the above facilities. And, that in particular: 1. For the purpose of rationalizing the provision of community residential care services, the Government should immediately designate responsibility to a single provincial Ministry, either the Ministry of Community and Social Services, or the Ministry of Health, for the provision of administrative coordination of the existing and future community residential care services. 2. For the purpose of ensuring minimum standards of operation for community care residences the Government should license and regulate all such facilities especially with regards to staffing, recreational and therapeutic programs, etc. Adequate inspection and enforcement procedures should also be developed to ensure compliance with the regulations and licensing requirements. 3. For the purpose of ensuring the appropriate provision of community care residences, the Government should: (i) devise criteria to define the population in need of community residential care services; (ii) design the services needed to meet the requirements of this population; (iii) and, develop provincial funding mechanisms for program, capital and operating costs. 4. For the purpose of solving the problems that have occurred in attempting to locate community care residences, the Government should introduce legislation to amend section 35 (1) of *The Planning Act* so as to require municipalities to permit the establishment of licensed community care residences in reasonable proportion to the local populations. 5. For the purpose of ensuring close cooperation between the Province and the municipalities, the Government should form a Community Liaison Section within the designated Ministry to confer with communities regarding the location, size, and type of community residential care facilities in municipalities. 6. For the purpose of ensuring that adults with special personal care needs, living in boarding and lodging homes, receive the services they require, the Government should encourage municipalities to: (i) consider the licensing of a special category of boarding and lodging homes which cater to such adults; (ii) and, to establish for that special category whatever additional personal care and physical facility municipal standards may be necessary. 7. For the purpose of promoting the operation of these special boarding and lodging homes by volunteer, non-profit and municipal agencies, the Government should consider funding these agencies for the capital costs of providing such shelter. 8. For the purposes of improving standards of operation in those boarding and lodging homes within this special category, which are privately owned and operated, the Government should consider providing funds for support services such as public health, social services, community police, and educational programs. 9. The Government should consider devoting a greater portion of provincial funds to the development of a comprehensive body of community support services, including more appropriate support programs, for the physically, mentally, or emotionally handicapped or disadvantaged adults. *To be debated October 18th, 1979.*
26. *Mr. Smith* (Hamilton West)—Resolution—The Legislature of Ontario requests that the Government of Canada be urged to use every effort and means to secure the release of Yuriy Shukhevych and Lev Lukianenko from Soviet

imprisonment and the compliance of the Government of the USSR with the letter and spirit of the Helsinki accords and the Charter of Human Rights.

27. *Mr. Haggerty*—Resolution—That, in the opinion of this House, no approval be granted for any permanent nuclear waste repository in Ontario, without the specific approval of the Ontario Legislature.
28. *Mr. Renwick*—Resolution—That, nearing a time of crisis and decision for Canada, a Committee of this House be named immediately to review the present proposals and positions of this government in relation to national unity and related constitutional issues, so that the position of this House may be made clear, particularly as the positions of the governments, Federal and Provincial, of the Task Force on Canadian Unity and other concerned interested bodies have now been published; and that the Committee be required to recommend to this House the policy and proposals for Ontario which will best ensure the continuing unity of Canada; the said Committee to report not later than December 31, 1979.
30. *Mr. Cassidy*—Resolution—That this House calls on the Government of Canada to keep PetroCanada as a viable, publicly-owned and fully-integrated national oil company and not to permit any of its operations to be sold into private hands.
31. *Mr. Smith (Hamilton West)*—Resolution—That the Legislative Assembly of Ontario, noting reports that the Government of Canada intends to increase the price of domestic crude oil by as much as \$5 a barrel, and the price of natural gas by a corresponding amount on an energy equivalent basis, 1. Expresses its deep concern that such increases will greatly harm the consumers of Ontario and Canada generally, and will have a serious inflationary and recessionary effect on the Ontario economy; 2. Opposes any increase at this time in the prices of crude oil and of natural gas which results in windfall revenues and profits for the petroleum industry and the producing provinces; 3. Endorses the policy of one base price for crude oil across Canada and the subsidization of foreign imports of crude oil which that policy entails; 4. Supports the use of public funds for a greatly expanded program for energy conservation and the development of renewable energy supplies and systems; 5. Advocates, as interim measures, the imposition of federal excise taxes on crude oil and natural gas for the purpose of subsidizing imports and funding energy conservation and renewable energy programs; 6. Urges that such excise taxes be kept in place pending review and reform of the federal government's Equalization Policy and payments, with particular regard to the grossly inadequate weight now given to provincial oil and gas revenues as a factor in the Equalization Formula. And further, that the Legislative Assembly requests Mr. Speaker to transmit this Resolution forthwith to the Government and Parliament of Canada, and requests the Government of Ontario, in its discussions with the governments of Canada and other provinces to reflect the views expressed herein diligently and in good faith.
32. *Mr. Jones*—Resolution—That in the opinion of this House the Government consider adopting a procedure of payment to suppliers to the Government of goods and services of a value of \$100 or less whereby the Government enclose an executed blank cheque with the purchase order to the supplier. *To be debated November 1st, 1979.*

Ballot Item No. 28

*Mr. Young—Resolution—That, in the opinion of this House, the Government of Ontario should take immediate steps to: (a) develop standards and provide support for community residential care services, such as group homes and half-way houses; (b) consider the provision of provincial funding support for local agencies operating that special category of boarding and lodging homes which cater to emotionally, physically or mentally disadvantaged adults; and (c) to provide community support services for the above facilities. And, that in particular: 1. For the purpose of rationalizing the provision of community residential care services, the Government should immediately designate responsibility to a single provincial Ministry, either the Ministry of Community and Social Services, or the Ministry of Health, for the provision of administrative coordination of the existing and future community residential care services. 2. For the purpose of ensuring minimum standards of operation for community care residences the Government should license and regulate all such facilities especially with regards to staffing, recreational and therapeutic programs, etc. Adequate inspection and enforcement procedures should also be developed to ensure compliance with the regulations and licensing requirements. 3. For the purpose of ensuring the appropriate*

provision of community care residences, the Government should: (i) devise criteria to define the population in need of community residential care services; (ii) design the services needed to meet the requirements of this population; (iii) and, develop provincial funding mechanisms for program, capital and operating costs. 4. For the purpose of solving the problems that have occurred in attempting to locate community care residences, the Government should introduce legislation to amend section 35 (1) of *The Planning Act* so as to require municipalities to permit the establishment of licensed community care residences in reasonable proportion to the local populations. 5. For the purpose of ensuring close cooperation between the Province and the municipalities, the Government should form a Community Liaison Section within the designated Ministry to confer with communities regarding the location, size, and type of community residential care facilities in municipalities. 6. For the purpose of ensuring that adults with special personal care needs, living in boarding and lodging homes, receive the services they require, the Government should encourage municipalities to: (i) consider the licensing of a special category of boarding and lodging homes which cater to such adults; (ii) and, to establish for that special category whatever additional personal care and physical facility municipal standards may be necessary. 7. For the purpose of promoting the operation of these special boarding and lodging homes by volunteer, non-profit and municipal agencies, the Government should consider funding these agencies for the capital costs of providing such shelter. 8. For the purposes of improving standards of operation in those boarding and lodging homes within this special category, which are privately owned and operated, the Government should consider providing funds for support services such as public health, social services, community police, and educational programs. 9. The Government should consider devoting a greater portion of provincial funds to the development of a comprehensive body of community support services, including more appropriate support programs, for the physically, mentally, or emotionally handicapped or disadvantaged adults. *To be debated on October 18th, 1979.*
